

# THE MBBS DILEMMA: SEATS. DREAMS. REALITY

# INDIA'S MEDICAL DREAM STARTS WITH **NEET**. **BUT FEW GET IN**

In 2023, 20.3 lakh students appeared for NEET. Over 11.4 lakh qualified, but only 1.18 lakh MBBS seats exist.

That's **1 seat for every 10 aspirants**.  
The pressure is real. The odds are harsh.  
And **thousands look abroad** for a lifeline.

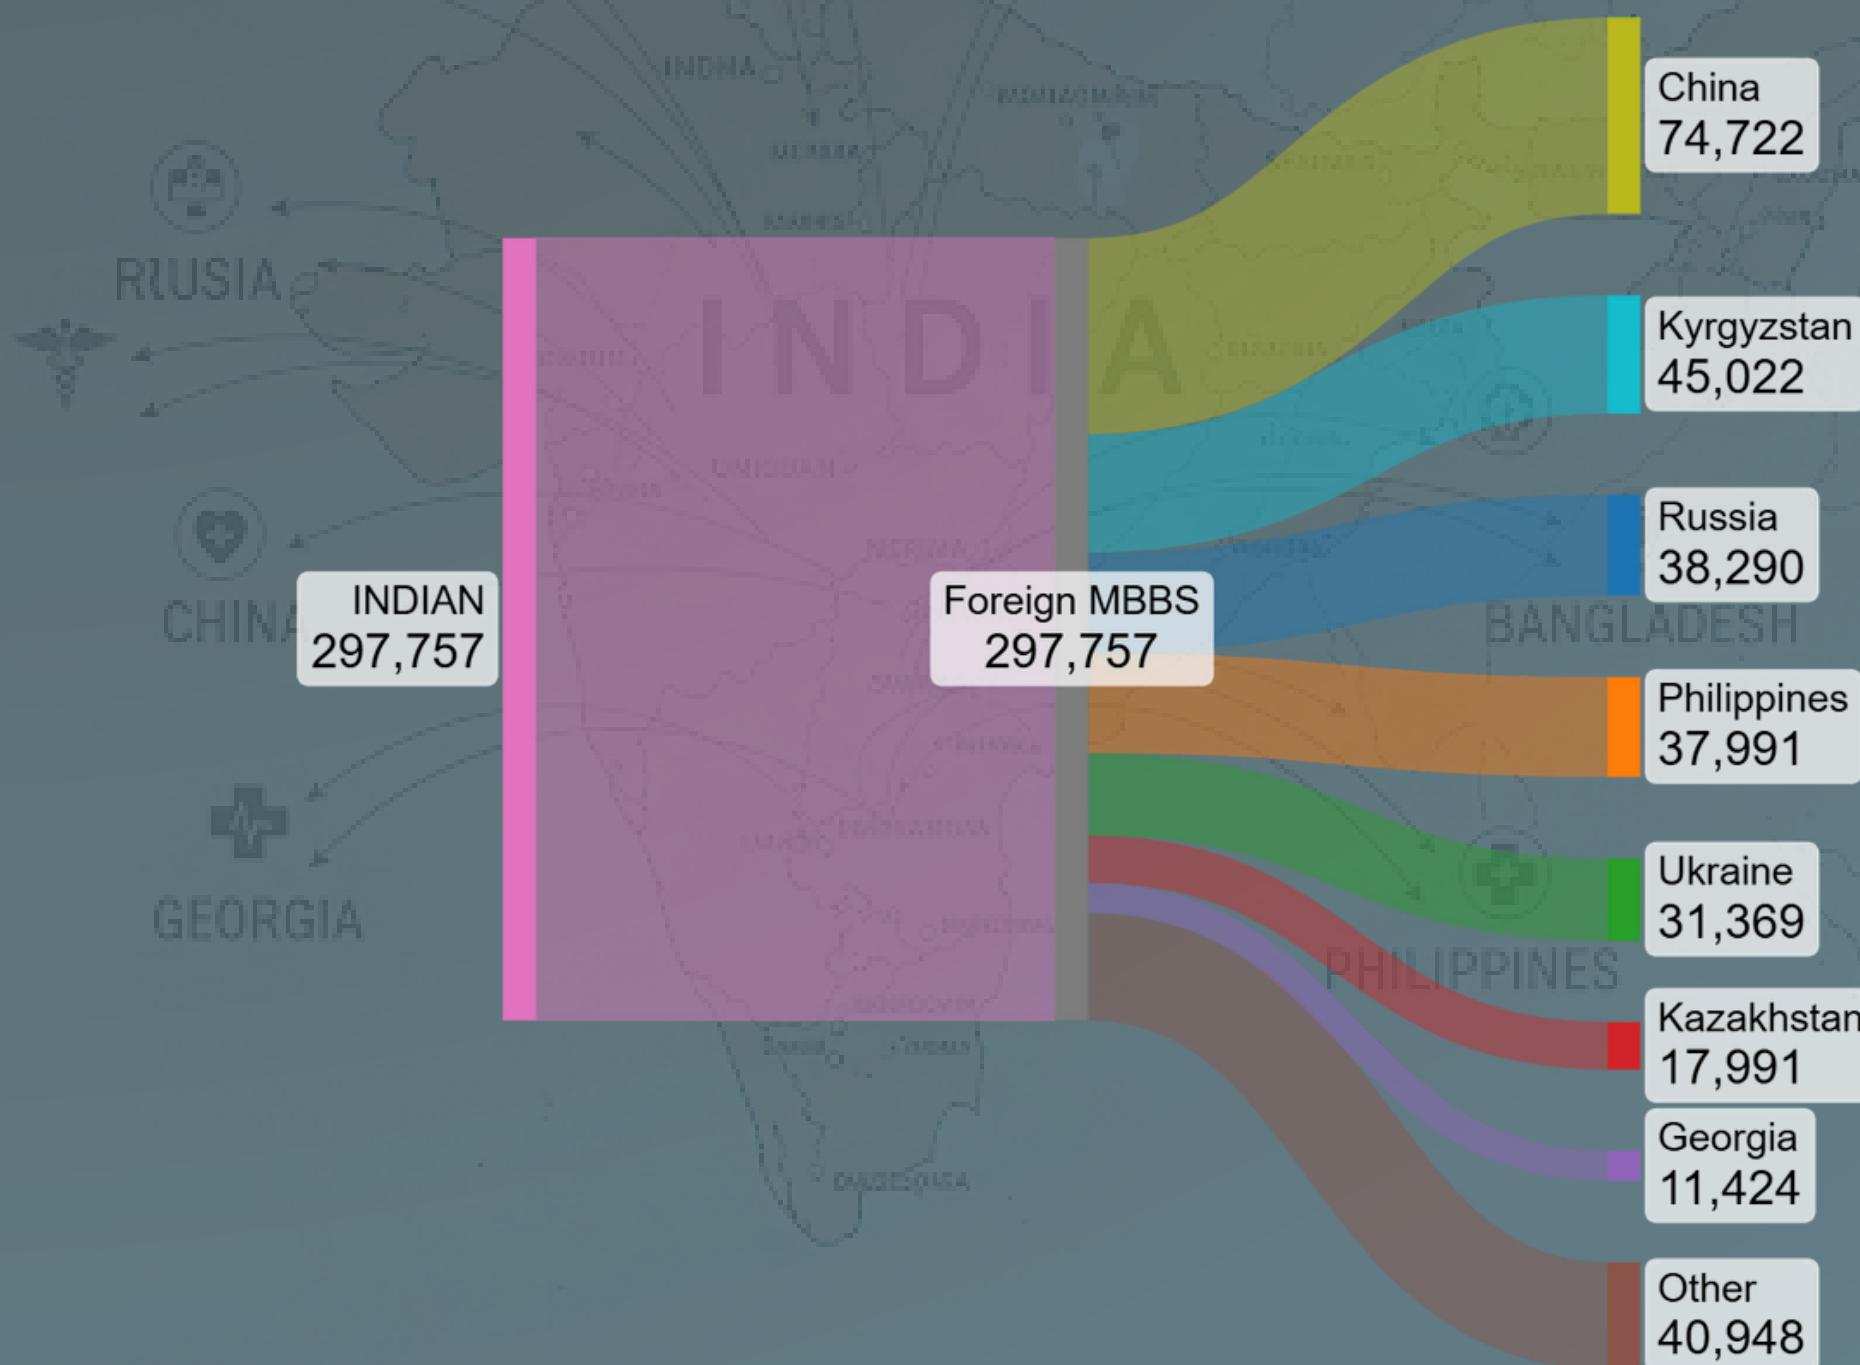

**NEET Exam Statistics**

# WHEN INDIA SAYS NO, THE WORLD BECOMES AN OPTION

With limited domestic seats, students explore foreign MBBS routes.

Between 2019–2024, nearly **3 lakh Indians** took the **FMGE** to return home and practice. It's not just about opportunity abroad—It's about coming back prepared and licensed.

# FMGE: WHERE ONLY 1 IN 5 MAKE IT BACK

From 2019–2024:

Appeared: 2.97 lakh, Qualified: 66,059

Pass Rate: Just 22%

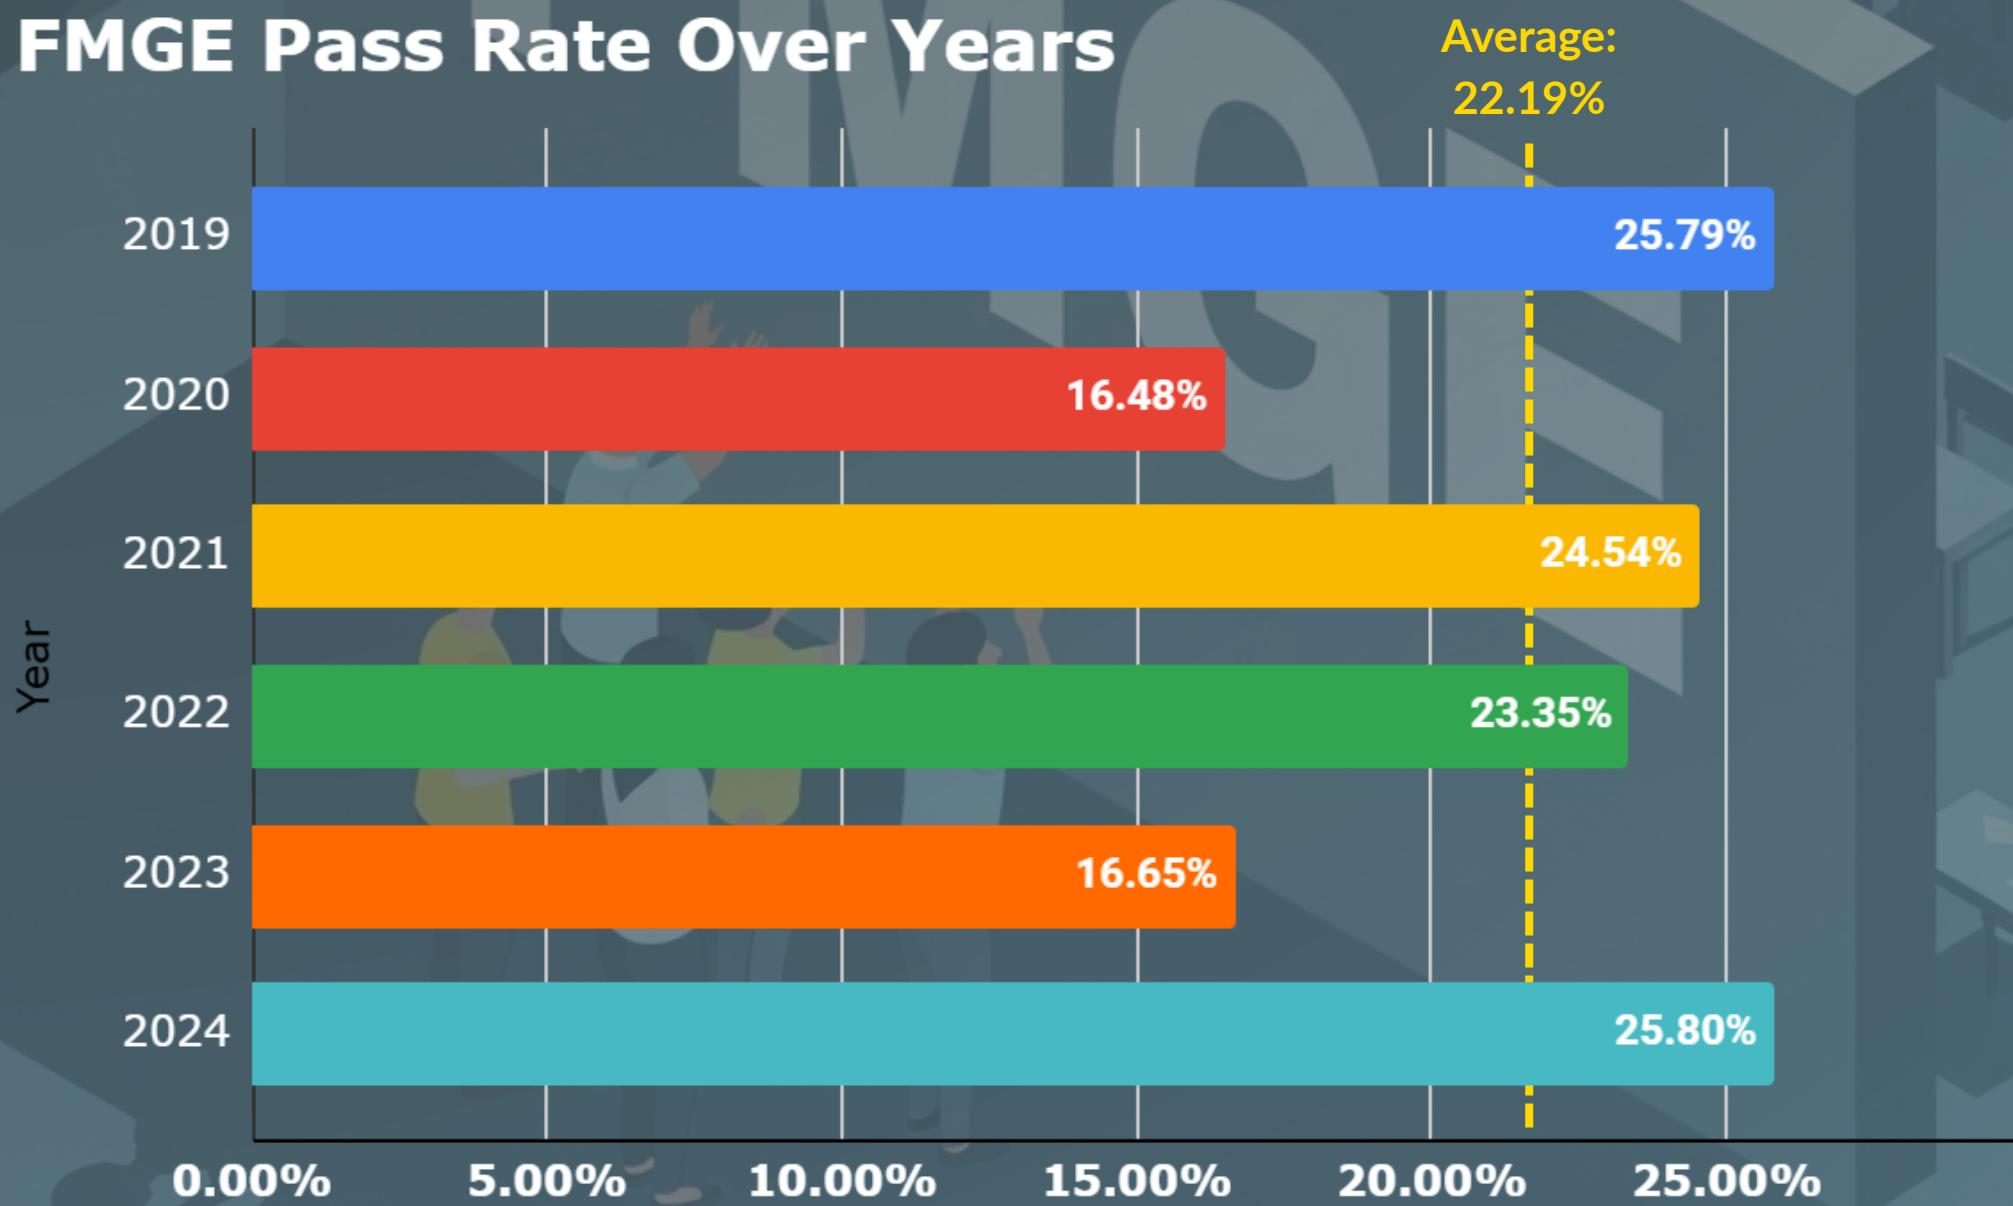

In 2020, it even dipped to a shocking 16.48%.

Each year, thousands fail despite degrees.

The challenge isn't just studying abroad—

It's coming home and qualifying.

FMGE Pass Rate Over Years

# NOT ALL FOREIGN MBBS DEGREES ARE EQUAL.

Your destination matters.

China: 16.4%

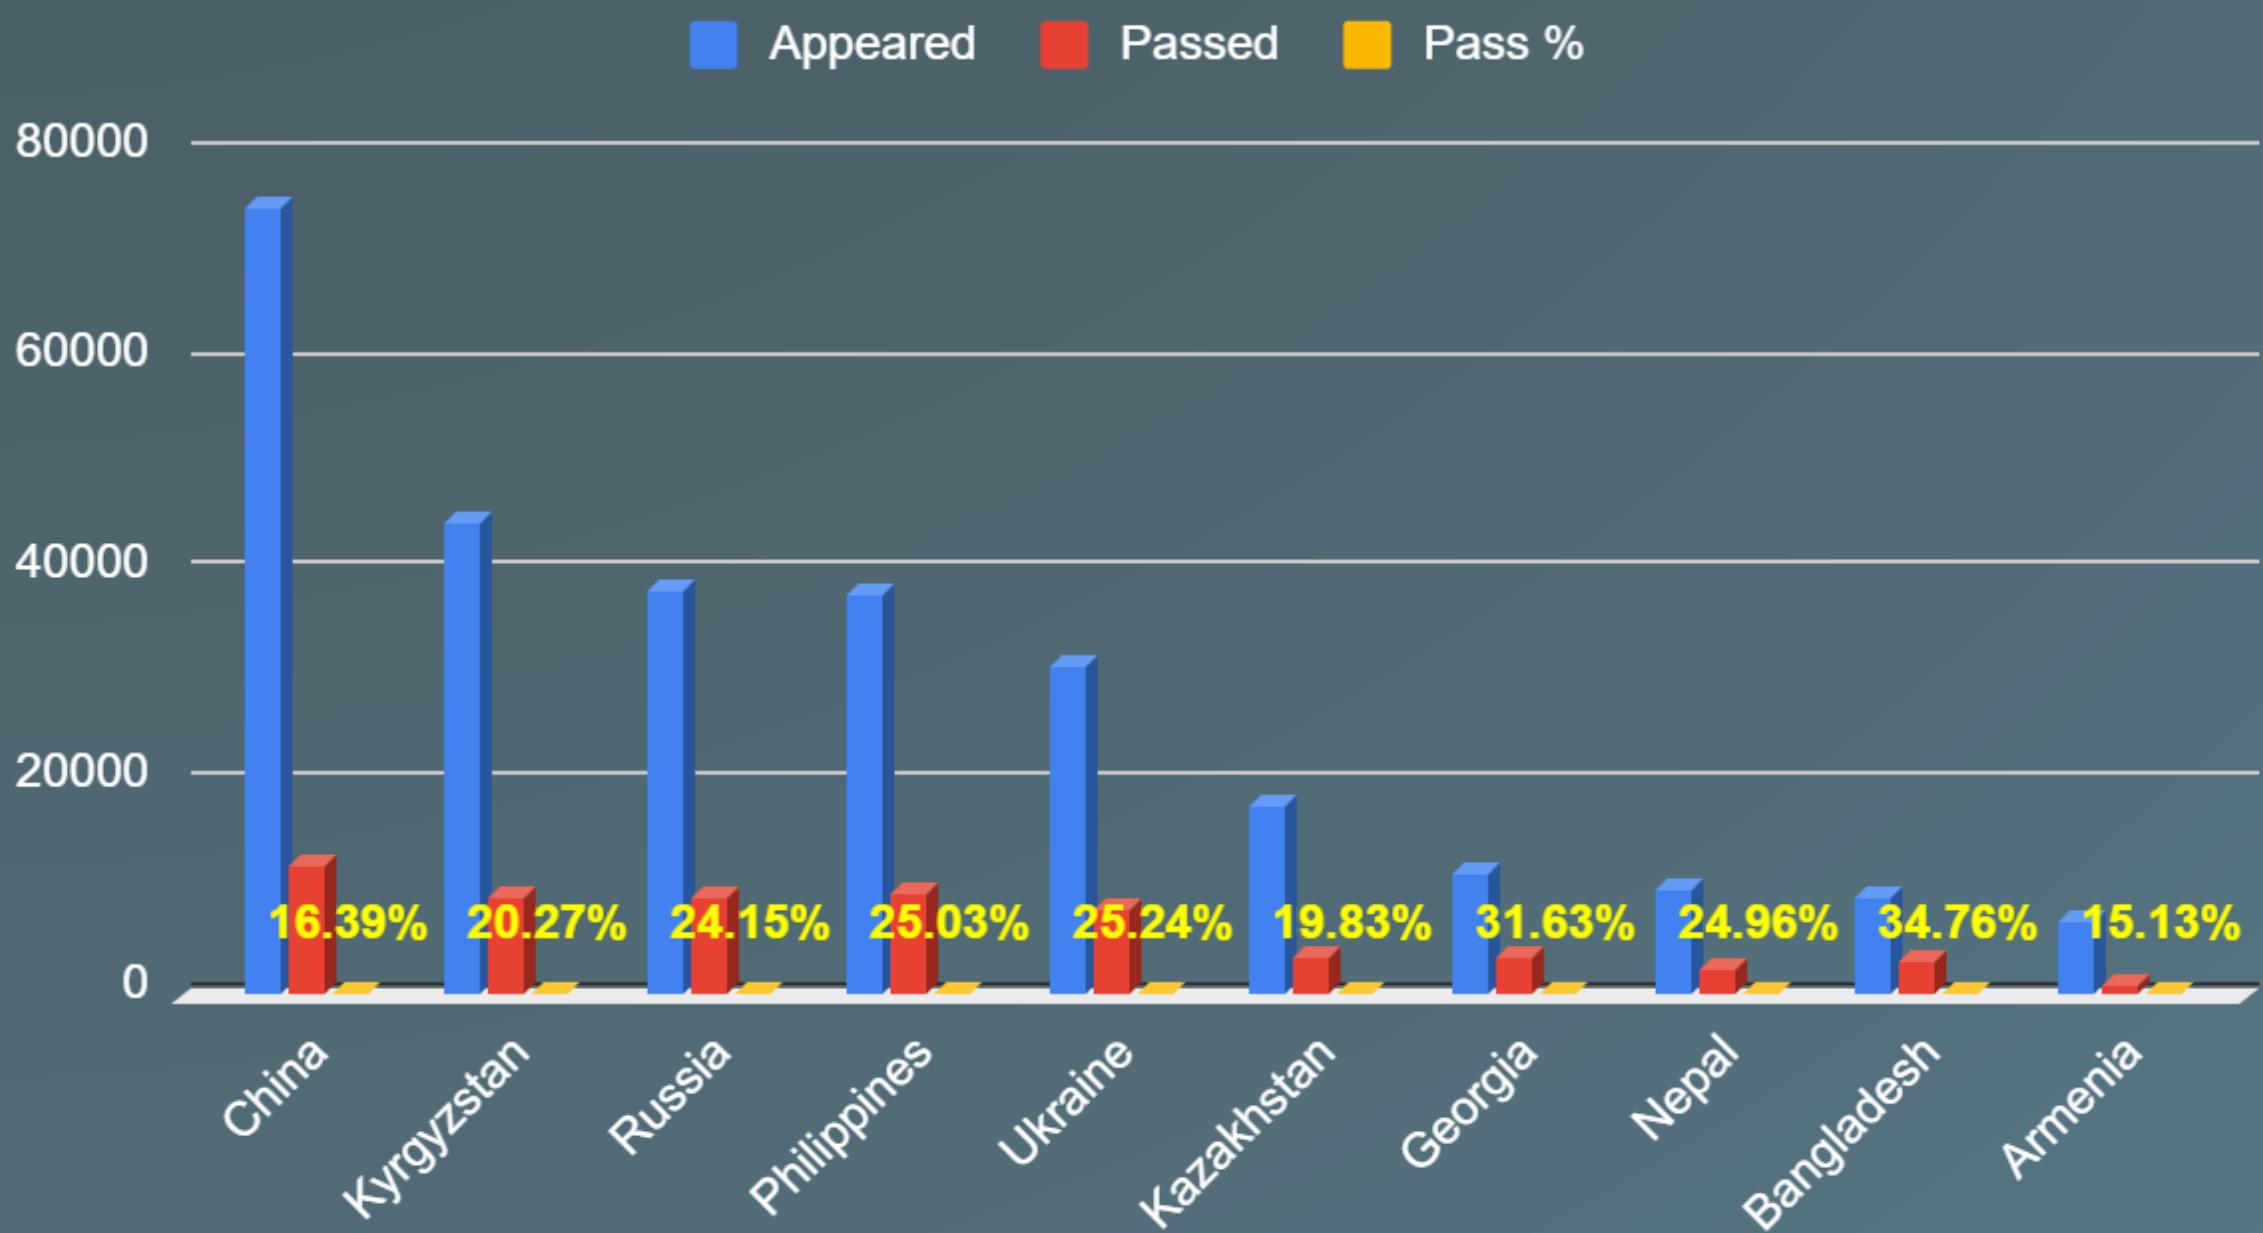

Philippines: 25%

Georgia: 31.6%

Bangladesh: 34.8%

So does curriculum, language, and clinical exposure.

## Top 10 Destinations

# RISING STARS: BETTER OUTCOMES FROM NEW DESTINATIONS

A new wave is rising:

Mauritius (50%)

Uzbekistan (36%)

Moldova (33%)

Malaysia (31%)

**Choosing wisely = better FMGE success.**

Data is your compass.

# WHERE STUDENTS STRUGGLE THE MOST

- ✗ Low-quality universities
- ✗ Curriculum Discrepancies
- ✗ Vast Syllabus and Limited Time
- ✗ Lack of Familiarity with the Exam Format
  - ✗ Language issues
  - ✗ Lack of clinical exposure
  - ✗ No coaching for FMGE

The problem isn't just abroad.  
It's the **gap between degree and Indian standards.**

# FROM RISK TO ROADMAP: MAKING FOREIGN MBBS WORK

- ✓ Choose quality over hype
- ✓ Ensure the college is recognized by the National Medical Commission (NMC)
- ✓ Instructions in English
- ✓ Check FMGE pass rates
- ✓ Real clinical exposure
- ✓ Seek coaching and mentorship

The world is open—but it needs strategy, not just hope.

# THE FUTURE OF MEDICINE ISN'T JUST INDIAN. IT'S GLOBAL.

To Students: Choose wisely.

To Parents: Guide, don't push.

To Educators & Universities: Innovate. Align.

To Policymakers: Bridge the gap.

Let data drive dreams.
